

PSA Hyperbaric Oxygen Chamber

Zoy hyperbaric oxygen chamber combined with PSA oxygen concentrator and refrigerator optional. Soft portable type and hard type could meet various need for multiplace. It' s easy to operate, low noise, mult-functional, suitable for medeical, home, fitness club, beauty spa different application.

PSA Oxygen Concentrator input 90% purity oxygen and ambient air to the oxygen chamber to create a pressurized environment. In a hyperbaric oxygen therapy chamber, the air pressure is increased two to three times higher than normal air pressure. Under these conditions, your lungs can gather much more oxygen than would be possible breathing pure oxygen at normal air pressure.

Features

- ◆ Easy Maintenance & Operation
- ◆ Low Noise
- ◆ High Safety
- ◆ Alarm Function

Specification

Item	Performance Data
Flow Rate	0-5LPM / 0-8LPM / 0-10LPM
Oxygen Purity	93% (±3%)
Outlet Pressure	0.04-0.07MPa(6-10PSI)
Noise Level	≤50db
Power Consumption	≤550w / ≤550w / ≤880w
Net Weight	26 Kgs / 26Kgs / 27Kgs
Size	365×375×600mm ¹
Oxygen Concentration	25-30%
Gas Inlet size	Air: Φ12 Oxygen: Φ8
Pressure	0.35bar/5psig
Alarm Function	Power Failure alarm, Low Purity alarm, High&low pressure alarm(optional)
Voltage	AC220V

Note: the application of hyperbaric oxygen chamber should be good ventilated, avoid sun-burn and raining, which could maxize the service life.
